

### VISION /MISSION STATEMENT

Our vision is to Glorify God by partnering with people who desire to serve children at risk in Indonesia and South East Asia. Our mission is to search out and identify orphans and children at risk in Indonesia and South East Asia. To connect these children with caring and loving sponsors who will assist them by enabling loving, mature care givers to assist the children according to their needs. We do this by utilizing national workers to assist us to give these children every possible opportunity to heal, excel in education to achieve their highest aspirations. We desire to provide an environment of love, hope and joy empowering these children to become the future leaders of their communities and to glorify God.

Sponsorship and Information Program

## Who We Are

On December 26<sup>th</sup>, 2004 a massive Tsunami was triggered by an earthquake to the west of the island of Sumatra Indonesia. With the power of 1,000 Hiroshima sized Atom bombs the Tsunami struck the coast of Sumatra with lethal force. Houses, schools, buildings were virtually wiped of the earth as the wave pushed inland 5 kilometers. Millions were affected and still remember the powers of God and Nature that day, as over 130,000 people died in Indonesia alone.

Following the guidance of the Lord we started to visit the area 12 days after the tsunami. In a short time we realized that the children were being overlooked in the massive rehabilitation and reconstruction efforts of most NGO's as they dealt with major issues.

The Children we met by the hundreds needed healing, counseling and educational assistance as well as help with their physical needs as a result of the tsunami and previous poverty conditions.

Together we decided to form Asia Children Relief Fund in order to better assist orphans and the children at risk in the Tsunami areas of Indonesia and South East Asia in Oct. 2005. Since then Asian Children's Relief Fund has continued to grow and be a blessing to many children at risk and orphans in Indonesia.

How it works: Sponsors enable us to work by donating \$25.00 a month to sponsor one child. Funds are used to purchase books, school supplies, clothing, shoes, and food to assist the children in education. A relationship between the sponsors and children is built and maintained by quarterly mailings of letters and pictures to the sponsor and back to the child.

Children receiving food and help in Indonesia.

Children being sized for shoes for school as part of their support.

Donations and requests for information can be sent to these offices:

### USA:
